## UNI TURNS OVER HISTORIC DOCUMENTS TO UCLA

CAMPUS RENOVATIONS CONTINUE PRESERVATION

NEAL REIN S'66, UHEF PRESIDENT

[sabersafety@yahoo.com](mailto:sabersafety@yahoo.com)

(818) 991-0628

Since our last newsletter, the UniHi Education Foundation (UHEF) has continued its work supporting what we know is one of the best and most historic high schools in Southern California. Those from other schools may take issue with our appraisal of Uni, but I will be glad to take on their challenge, point by point and fact by fact. Call me an unabashed supporter and cheerleader for Uni. It is a title that all of us on the Foundation board wear proudly.

In the last newsletter I described the discovery of the original plans for virtually all the buildings on campus. These plans, many original "blueprints", dating back to 1923, were in the basement buried under years of mundane school records and obsolete supplies. We have now successfully excavated these documents and thanks to the efforts of Alejandro Huerta '97 and cooperation of Ms. McGehee they are in the hands of the Special Collections department at UCLA's Young Library. Rather than just a handful of documents, we were able to locate and turn over to UCLA hundreds of pages of architectural drawings, many over 75 years old.

The architectural drawings are helping us piece together some of the more arcane facts about Uni that have been long forgotten. For example, we determined that the "old" gym building that was torn down after the 1971 earthquake was not the original gym at all. There was a smaller gym building that was used for a few years before the "old" one was constructed. The first building was not designated as a temporary structure, so the reason it was replaced after only a few years is unknown. (If any one knows the details of this bit of history please let us know.) Another interesting fact deals with the name of the school. We all knew that Uni was originally called "Harding High", but what we discovered from the construction drawings is that the school was first designated as "Sawtelle High" back in 1923. This is before construction actually started and when the area had not yet been annexed to the City of Los Angeles.

What was to me the most exciting find were the full plans for the original auditorium. Those who never had the opportunity to sit in that auditorium truly missed a grand experience. Suffice it to say that the size, design, amenities and architectural details of that auditorium were equal to what you would have found in most big city professional performing venues of the era. Like so many others, I had the opportunity of participating in several Drama performances in the old auditorium. It was as close to being "on Broadway" as a high school student could get.

The other significant item that I want to make you all aware of is the addition of new display cases in the main hallway of the Administration building. As it seems with all that is Uni, there is a bit of an historic tale involved here too. The trophy cases that you see when you first came in the front doors were installed in the very early 1960's. Not too historically significant I admit. However, as you walked through the hallway towards the stairway that leads to the flagpole area, there were two rather large dark wood display cases. These were in very sad shape and were not big enough to serve the needs of the students who routinely display their projects and artwork. A little research determined that one of these cases was originally built when the school opened in 1925. The other case, although similar in appearance, was built a few years later. Together, they looked pretty sad. The UHEF decided that a big step in improving the appearance of Uni and increasing school pride and spirit among the current students was to give them a set of display cases that were not only beautiful but would provide plenty of space for display of their work.

After some research, we were able to contact a Uni graduate (and classmate of mine from S-66), Mr. Ron Hagar. Ron agreed to do the work of restoring the original cases and building a new matching case. Ron crafted a beautiful replica so that it is virtually impossible to tell the old from the new. Please stop by the campus to take a look. For those of you who can't just drop in, we will be posting some photographs on our web site at [www.universityhs.org](http://www.universityhs.org). The UHEF is extremely grateful to Mr. Hagar for his time, effort, craftsmanship, and well as his devotion to Uni High.

The UHEF exists to support Uni and to help provide for the woeful lack of public funding for our schools. We can debate all day as to why necessary funding does not find its way down to the students, teachers and physical school sites. Debate is helpful, but it doesn't pay the bills. Please help us bridge this gap and show your support for Uni by joining the University High Education Foundation.

**GREETINGS FROM ELOIS MCGEHEE, PRINCIPAL**

As I near the close of my second year as the Principal of Uni, I am glad to have the opportunity to share with you the changes that have occurred this past year.

We began the 2003 school year with a change in the bell schedule that permitted students to once again remain in the same six classes from September to June. An alternating block schedule facilitates that continuity while allowing for the benefits of longer periods. This is part of the on-going curricular innovation that has always been part of UNI.

The threat of the removal of the ficus trees in the Barrington Avenue Parking Lot for safety reasons created a campaign that united students, teachers and community members together to "save the trees". The results of their efforts not only saved the trees but introduced rubber sidewalks at Uni. This creative solution to the problems created by the roots of the ficus trees was featured on The Huell Howser Show in January 2004 on PBS. Grounds keeping responsibilities have moved from a single gardener for the entire 23 acres of Uni to a crew of gardeners who come once a week to maintain the beauty of the campus. I'm sure that you will appreciate the improvement when you come to visit.

The Performing Arts department continues to provide a forum to showcase the extraordinary acting, dancing, singing and musical talents of our students. Each year they perform two dramatic plays, one bilingual play and two musicals. "Cabaret" was the highlight of the year. The Music Department's jazz ensemble, in addition to performing at the UNI HI FOUNDATION picnic each year, has also performed at the Disney Concert Hall and most recently at the Santa Monica Pier. Sixteen electronic keyboards have been added to the music department to create a piano lab class that enhances our music offerings for our students. The music department is exploring ways to acquire an additional 16 keyboards so each student in class can have their own practice station. Our art students continue to post some of the highest Advance Placement scores in the district and have been recipients of many art contest awards.

On a sad note, we lost two counselors this year. Jim McKenzie, Uni class of Summer 1961, UCLA graduate and counselor here for much of his 38 year teaching career, passed away unexpectedly in December. Sharon Mednick, counselor at Uni for over 30 years prior to her retirement in 2003, fought a heroic three-year battle before succumbing to cancer in March. Both are missed dearly. Rest assured that the counseling office will continue to uphold the high standards and reputation that the Uni community has come to expect.

Finally: the fiscal crisis that affects the state of California will be felt keenly by University High School. Your generosity and your financial support —always greatly appreciated—this year will be imperative. Know that any contribution that you give to the UniHi Education Foundation will support the instructional program. On behalf of our community, I extend our gratitude.

Whenever you are in the neighborhood, please drop by. I am looking forward to seeing you at the All-Alumni picnic and celebration in October and hope that you'll join us at "The Great Taste" in Brentwood.

**OCTOBER "GREAT TASTES IN BRENTWOOD"**

Uni High will participate this year in the annual "Great Tastes In Brentwood." This wonderful event is a sampling of fine food and wines from across our city. It will be held on Sunday October 10 from 11am to 5pm. The location is on San Vicente Boulevard Between Brigham and Barrington.

This is always a very festive time with lots of food, fun and entertainment for the whole family. The proceeds are distributed to participating schools, so come out and show your support for Uni.

## ALL ALUMNI PICNIC BRINGS FRIENDS AND FAMILIES TOGETHER

BY IVAN FINKLE S'50

EMAIL IFINKLE@AOL.COM

Kay & Robert Dennis (1943); Danny III (2020), Danny Jr (1983), Sandy Franco (1979)

Last year's picnic brought many interesting stories to our familiar campus. One of those stories began when Robert Dennis, class of 1943, saw a copy of the 1941 yearbook for sale. Robert, you see, left Uni in 1942 and joined the army. He soon found himself island hopping in the South Pacific...and we don't mean he was on vacation. After coming home he met and married Kay Matsuda, recently from Albuquerque, and they were blessed with a lovely daughter, Sandy Dennis, who, by the way, graduated from Uni Hi in 1979.

Back to that 1943 yearbook. Robert was excited to find it and showed it to his now son-in-law, Danny Franco, yes, also a Uni Hi graduate, class 1983. Danny delighted his father-in-law by buying the yearbook and presenting it to him. Danny and Sandy now have an 18 month old son, Dan Franco III. Dan III by the way is Uni Hi, class 2020. Talk about a Uni Hi family! Sandy has two brothers who are also Uni grads: Robert, class of 1975 and Gary, class of 1976. So, in all, the Dennis/Franco family represents 5 Uni grads and one potential grad, Danny III.

Another interesting story came about when June Allen (Soderstrom) arrived at the picnic at the same time that Ross Oakley got out of his car and said: "Say, you look familiar. What class were you in?" Turns out both were of the 1938 class, and hadn't seen each other since then. Three days after Ross's graduation Ross was enrolled in barber college. Ross then found himself in the army in October 1941. After returning from the service he joined his father in Oakley's Barber Shop, which opened on the west side of Broxton in 1947. Ross and his two brothers are the fourth generation of barbers, from their great grandfather to their father. Ross himself is the father of three girls. Not a hairdresser among them. Ross left the barbering business in 1972 and became part owner of the Mexican restaurant El Torillo.

June's husband was her classmate, Seward Allen. He sat in front of her in English, and often would turn around and make her giggle, she recalls. He lived in Holmby Hills, she at 1034 Selby, so they were neighbors. She often would dine with Seward and his folks at their home, and he often would pick her up and drive her to school. They lost touch after graduation. She got her nursing degree from the California Hospital Nursing School with a BS degree from USC. Meanwhile Seward asked her out before leaving for WWII, and they corresponded while he was in Europe from 1942 through 1945. He asked her to marry him upon his return from Europe in September 1945, she accepted, and the rest is history. They had two sons, now have added two daughters-in-law, five grandchildren and one great grandson, five years old. Unfortunately, Seward passed away last January.

Later in the day June ran into Howard Stimmel. Howard would have been class '38 but an illness prevented his continuing school for a while and he subsequently was graduated with the 1939 class. Howard was particularly glad to see June. They too hadn't seen each other since the "good old days". Howard recalls being in the ROTC and taking June to the Military Ball, held at the YWCA on Hilgard. He also recalls that it was his sister that drove them to the dance, and, by the way, gave Howard dancing lessons in preparation for his big date. "A wonderful gal!" Howard says of June.

We're looking forward to finding more stories at the Picnic, Car Show and All-Class Reunion on October 17, 2004.

**MEDNICK BEQUEST BEGINS 2004**

Counselor Sharon Mednick bequeathed a wonderfully generous sum of \$10,000.00 to establish the basis for a scholarship beginning in the year 2004. Additional donations totaling nearly \$4000 in her memory have been made to date. The UniHi Education Foundation will administer the funds, and the Counseling staff will select the recipient of the grant. It will go to a student who has demonstrated an interest in pursuing a career in education. Prior to succumbing to the cancer which she had battled for 3 years, she also endowed a \$200 scholarship to honor her colleague Jim McKenzie. During the years of struggle, she never lost her sense of humor or her desire and ability to help others. Her memorial service in March paid tribute to her gift for life and was well attended by colleagues, former students, and family.

No one appreciated the financial struggles of today's students more than Ms. Mednick who served as the college counselor from 1995. She had started her counseling career at Uni in 1975. Prior to that she had been a teacher and counselor at Markham Jr. High. She was an L.A. native; a graduate of Hamilton High School and UCLA. She was passionately devoted to her students and public education. She helped many Uni students in locating colleges and finding scholarships.

The College and Career Center that became a reality thanks to the Steven and Michelle Kirsch Foundation, was Sharon's dream project. She had first approached the Foundation in 1995 with the idea for such a facility. It was wonderful that she had the opportunity to work in that office before her retirement.

Sharon Mednick is sorely missed by the entire University High School extended family. She is survived by her four sisters, Betty, Estelle, Barbara and Wendy and her mother. If you wish to contribute to the Scholarship Fund in her name please do so through the UniHi Education Foundation.

**SCHOLARSHIP AWARDS 2003**

Last June at the Senior Awards ceremony your Uni High Foundation presented two scholarship awards to graduating seniors.

**The Loren Camacho Scholarship Fund** was established in 1987 in memory of Loren Camacho, a Uni student who was killed in a tragic traffic accident. The \$500 Scholarship Program is designed to assist, on a need basis, a student who has shown a demonstrated effort to overcome difficulty and a desire to pursue success in college and life. The recipient for the year 2003 is was Cristina Jeronimo.

In 2002 the United States Government established the Presidential Freedom award for extraordinary community service. Each federal award is for \$500 and the UHEF was delighted to be able to match that amount. There were two recipients of the award in 2003: Petra Pajtas and Jocelyn Park.

We look forward to participating at the Awards Ceremony again. Your support of the UHEF makes that possible.

## ALUMNI NEWS

The following is the most fun of the projects I have as Alumni Coordinator. Keeping track of class reunions is great, but a little frustrating when no one from a specific year is willing to organize an event. And, of course, there is always work to perform on the UniHi database. But Alumni News is a pleasure. Please contact me for classmate information – 310/472-5730 or [clynch522@aol.com](mailto:clynch522@aol.com) Carolyn Sausser Lynch, S'49

Responses to last year's Newsletter contained information about the passing of many alumni. Please know that the memorial notices included in the following Alumni News may not necessarily have occurred this past calendar year.

If you have other names to add to your class news for next year's Newsletter please include them with your returned information.

We are happy to report that COACH DUANE LARUE has been making steady improvement from injuries suffered in a fall last year. He has been taking visitors and continues hearing from well-wishers. If you want to contact him please send your letters to the UniHi Education Foundation at UHEF P.O.Box 491953 Los Angeles, CA 90049. We will see that they get to him

## UNI'S MYSTERY CELEBRITY CHALLENGE 2003: ANSWERED

Kudos to all who guessed Norma Jean Baker, our last issue's mystery celebrity.

She attended Uni for only one year, before going on to become Marilyn Monroe. 1942 Yearbooks sometimes show up with her picture missing.

The picture from the '42 Chieftain shows her in the tenth grade.

## 2004 MYSTERY CELEBRITY CHALLENGE

Coach Pursell

In January 2004 a genuine high school coaching legend, our very own James Pursell, passed away at the age of 103. He had coached track and field at Uni High from 1936 until 1959. To the many he coached he was never Jim or Jimmy. He was Coach Pursell.

His journey to becoming one of the most respected track and field coaches in California was an intriguing one. After attending Porterville High School, young Pursell helped his family by mule-drawn wagon from rural Central California to Gardena, a suburb of Los Angeles. Later, after a brief stint in the Marine Corps, Pursell was able to earn enough money to enroll at the University of Southern California in 1921.

His illustrious career had its beginnings when he walked onto the football practice field. Undersized physically – he weighed 130 pounds – his tenacity, hard work and natural born talent earned him a spot on the varsity, where eventually bulked up to 160 pounds. Playing guard he lettered at USC for three years.

James Pursell considered himself a football man, first and foremost, and upon graduating in 1924 was hired by Jefferson High School in Los Angeles to be both varsity football and track coach. His knowledge of coaching track was sketchy at best. Needing someone who could help him develop in that area, he sought out Dean Cromwell, the legendary USC track coach who was instrumental in developing so many of the best world-class track and field champions of the day. Cromwell agreed to become his mentor, and that relationship proved to be a highly successful one.

Leaving Jefferson, Pursell became track coach at Beverly Hills High School in 1930. At that time Beverly Hills was part of the Western League, and his teams excelled by winning the Western League title in 1933 and 1934. When Beverly Hills left the Western League in 1935 Coach Pursell moved to Uni, and as they say, the rest is history.

At that time campus enrollment was one of the smallest in the city, and it took him several years to build the track team so it could successfully compete with the larger schools. By 1940 Uni was ready, and took its first Western League title in 1941. Among the high school coaching fraternity Coach James Pursell was considered one of the very best. His amazing record at Uni High speaks for itself. Over the 24 years he coached there Uni became a track and field powerhouse with 13 Western League titles, several City cross-country titles, and a Los Angeles City Track and Field championship in 1944. He ended his incredible career with five straight league titles from 1955 through 1959.

Over three dozen of his student athletes went into track programs at major colleges and universities. Among them, Olympic champion "Pel" Mel Patton '43 (USC) – at one time considered the fastest human – and hurdling champion Craig Dixon '45 (ULCA). First and foremost, Coach Pursell was a teacher. Many of his past tracksters remember him as a man of solid integrity and a taskmaster who expected the very best from each individual. His work ethic was legend. He had a strict set of training rules that did not vary – as many of us discovered. He went about the business of coaching with a quiet confidence; a confidence which inspired us all and made his teams so formidable. Always supportive, he created an atmosphere in which the individual wanted to strive to do the very best he or she could do for the team, and he got the most effort out of everyone he coached. Coach Pursell's love of football never diminished. At Uni he took great pride in being the assistant football coach and was able to work with the linemen and teach them blocking and rushing techniques – techniques he had learned from his football days at USC.

Others have said that he didn't have to demand respect; he got it because of his ability to mentor. He was considered very fair and one always knew where one stood with him. On a Pursell coached team no one received special favors. He was a no-nonsense leader who did not believe in coddling anyone. Everyone was treated equally and coached with the same intensity, regardless of their degree of talent. As long as you tried to do your best he was on your side.

In a fitting tribute Dr. Steven Sample, President of the University of Southern California wrote, "He occupied a special place in Trojan lore as our oldest football letterman one of our last links with USC as it was in its early years. He lived a long and full life, and I know he will be sorely missed by those who knew and loved him."

And the many of us who owe so much to Coach Pursell and his legacy can only echo those sentiments with a, "So long Coach. See you at the finish line."

## A JOYOUS CELEBRATION OF THE LIFE & MUSIC OF JOHN MAGRUDER

As reported in last year's Newsletter Uni hosted a celebration of the music of John Magruder. Mr. Magruder passed away in April of 2003, less than one year after retiring from a teaching career of more than 40 years. He was the director of Uni's music department from 1964-2002.

On June 29, 2003, Stivelman Auditorium was packed with family, friends, colleagues and former students, and everyone who came was treated to a nearly three hour concert of Mr. Magruder's compositions and arrangements. The musicians who participated were not only the "regulars" from the "Magruder Machine" but included other jazz musicians and some of his former students. Jack Moscovitz, Uni principal (ret.) for nine of John's years, shared some wonderful memories and stories about working with John. Most significantly, when he asked how many in the audience of more than 350 people in attendance had been students of Mr. Magruder, nearly half the audience stood up.

The concert was recorded by Uni's current music director Art Shane, and thanks to the generosity of Mrs. Joy Magruder, a 2-CD set has been created and is available for purchase for \$20.00. All proceeds of the CD set go to the Music Department at Uni. Our heartfelt thanks and appreciation go to Mrs. Magruder. She continues to produce John's music and share it with all of us.

*Thanks....  
Joy ♥♥*

## REMEMBER THE FOUNDATION IN YOUR ESTATE PLAN

One lasting way to support your school is to remember the UNI HIGH FOUNDATION in when making your estate plan. There are several ways to do this and all of them are designed to add your name to the list of those who have chosen to give back a little something to the school that was so helpful in preparing you for your life of success and fulfillment.

These options include:

- A bequest of a fixed dollar amount
- Give a percentage of your estate to the Foundation (This allows you to maintain the proportions you desire, regardless of the size of your estate)
  - Your gift can be contingent. (You can indicate what program, department, or other use the for which the money must be spent. Examples include student scholarships, specific department or program (eg. Drama, Music, Art, Language, Academic decathlon, etc.)
  - You can give property (Examples include, but are not limited to, real estate, business property, life insurance policies, collections which have a resale value, stocks, bonds, etc.) The obvious concern is that the gift not place a financial burden on the Foundation.

One of the nicest things you can do is make your gift in memory of someone, either yourself or a person you've either loved or admired. This option also exists for naming locations on the campus, including buildings, to be dedicated in the name/memory of the person. This is a wonderful way to create a lasting memory.

**If you are interested in making the Foundation one of your beneficiaries and have any questions, please feel free to contact UHEF V.P. Jack S.Moscovitz at (310) 279-2116 or [jmoscowi@lausd.k12.ca.us](mailto:jmoscowi@lausd.k12.ca.us)**

## SPRINGS PROJECT UPDATE

This past year has seen some changes in the direction that the Springs project has taken. As a result of the California budget tightening, it was necessary for the Task Force to expedite expenditure of the remaining funds from the initial State grant before the end of this fiscal year.

If you are interested in details about progress with the Springs project contact either Elois McGehee, Uni's principal or Angie Behrens of the Gabrieleno-Tongva Springs Foundation.
